How relevant are public open spaces for cities? (% of answers quite important and extremely important)

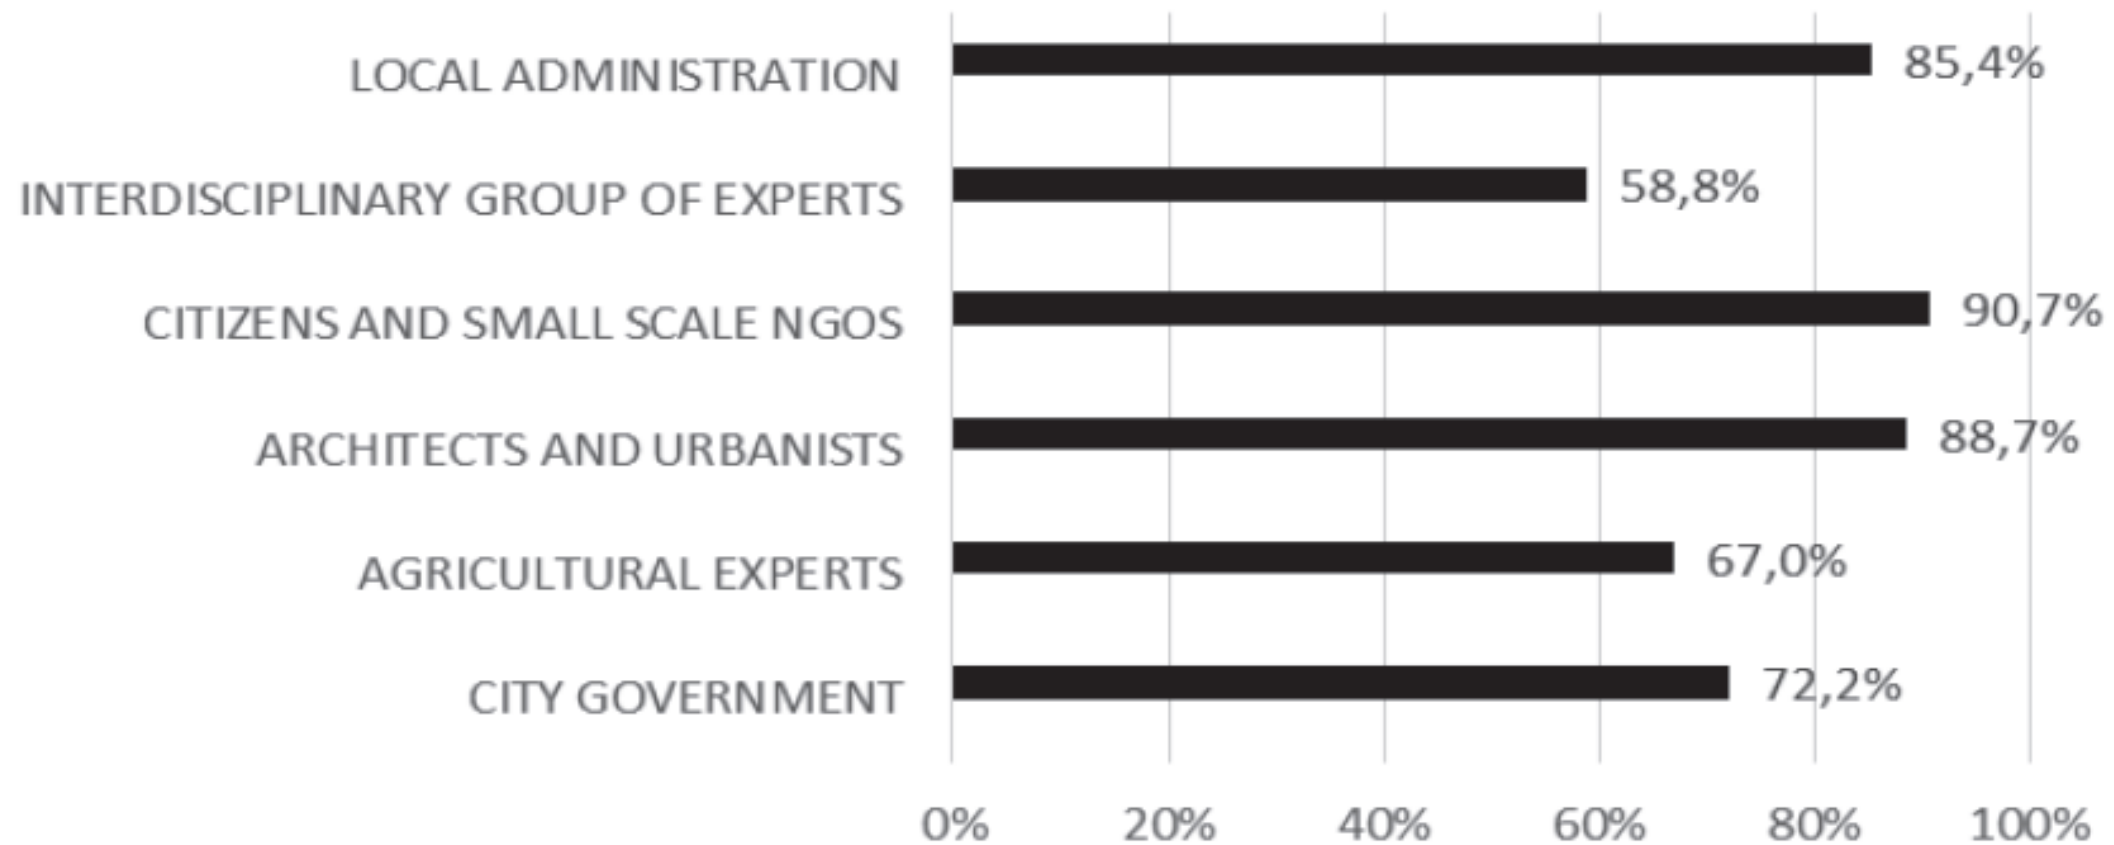

What are the most important functions of urban allotment gardens in cities?  
(% of answers quite important and extremely important)

Who should have the most important role in decision-making on projects regarding urban allotment gardens? (% of answers quite important and extremely important)

# Conclusion

- Urban gardens COULD unite postmodern urbanism
- Public consensus conservatively NOT in favor for urban gardens
- Bear elements of modern RECONCEPTUALIZATION of urban space
- Paradigm shift from rigid openness and static to MULTI-USE temporary urbanism
- Urban allotment garden REFLECT temporality, mobility, and availability

An aerial photograph of a modern architectural complex. The central focus is a large, curved building with a green roof and a facade of horizontal slats. The building is situated on a grassy area with a paved walkway and some trees. In the background, a city skyline is visible under a cloudy sky. The text "Thank You" is overlaid in white in the center of the image.

Thank You
